Dear Josh,

I want to extend my sincere gratitude to GHA Technologies, Inc. for the \$5,000.00 grant towards technology and PPE gear to Samaritan Center supporting mental health services.

Your generous gift of two Lenovo computers, a computer camera, gloves, masks, and sanitizer stands will have a major impact on helping heal hearts, provide hope, and enhance lives with a holistic approach to mental health for all ages, whole families, and the military community.

We rely on community support to offer free and affordable mental health care. Please let me tell you what our services mean to one person.

*Mateo proudly served in the U.S. Army. After, he left with a few injuries but he could deal with the pain. Then slowly over time it got progressively worse. He wasn't sleeping. Panic attacks and depression overwhelmed him. His physical and emotional pain became so unbearable he could no longer work. He rarely left his house. When he came to Samaritan Center he felt hopeless. In therapy, Mateo began to discuss his time in the military. He was able to process the trauma he had experienced. When his stress and anxiety would start to rise, he now had coping skills. Acupuncture helped to significantly reduce his chronic pain. He was connected with veteran peers who understood him and he felt less alone. They even helped with his disability application. Mateo now feels better overall. His sleep has improved, his pain decreased, and he's able to leave the house to live his life. Mateo says, "I have hope for the future."*

Thank you for helping us make a positive difference. Your support encourages our continued commitment to reaching our mission.

Sincerely,

Cindy Long  
Chief Executive Officer
